Why the Truth of 9/11 is still so damn important

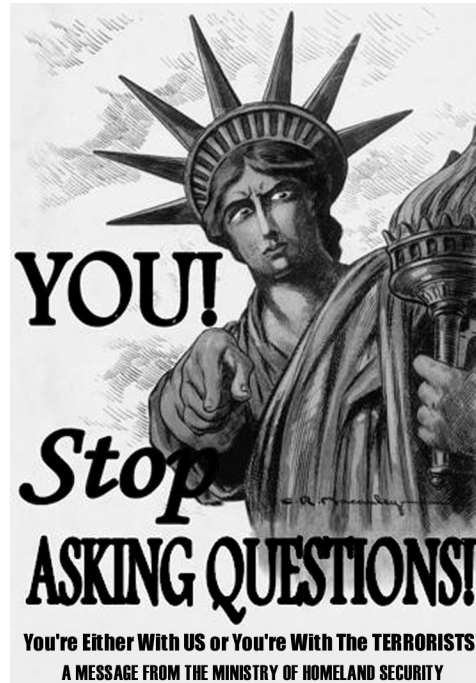

Since 9/11, our nation is a very new and different place. Freedoms and privacy have vanished. We are at war in many lands. Our media is cowed or fouled with propaganda. Poverty is rising, the wealth gap yawns, and deficits suck hope from our grandchildren's hands. Nature, democracy and our national standing are all under steady attack. We had big troubles with corporate assaults on our country before, but how did things get so much worse so fast?

9/11, we are told, accounts for it all, but what accounts for all the mysteries of 9/11 itself? Why couldn't a \$10 trillion defense system with over an hour's notice even protect its own headquarters? How could so many people be warned about – and profit from – a truly "surprise" attack? Why have responsible officials not been held to task, and in most cases actually rewarded? Why has the ensuing "state of war" concentrated so much power and gain in the hands of so few? Why are Constitutional rights being voided? Whose interests are served and whose betrayed in a reign of perpetual war?

If this were happening in some 3rd World land, we might grasp the logic pretty fast. A sudden "crisis" conveniently bolsters those in power, justifies "security" crackdowns and smoothes the path to totalitarian rule. But this is America, we think, and such things can't happen here. Well, we have several surprising movies that we think you should see before we go much further down this path. Your participation is warmly invited, but whether or not you attend this time, your personal involvement in the 9/11 aftermath whether as a citizen, parent and/or taxpayer will ultimately be impossible to escape.

A Few of 9/11's Many Still Unanswered Questions

1. In the warning-riddled months before 9/11 why did certain FBI officials consistently obstruct field agent investigations of potential terrorists and terror financiers?
2. Why were the many detailed warnings from the intelligence services of Britain, Germany, Israel, Egypt, Russia, Italy, and other foreign governments ignored?
3. Why were certain prominent people clearly warned not to fly on 9/11 or the days before?
4. Why did Gen. Mahmoud Ahmed, Pak chief of military Intelligence, approve over \$100,000 in wire transfers to 9/11 "ringleader" Mohammed Atta prior to the attacks?
5. In the 80 minutes after alerts of a multiple hijacking, while thousands were dying in the Twin Towers and a third jet hurtled toward the Pentagon, why were no USAF, Navy or Air National Guard fighters launched and ready to defend our capitol?
6. From ex-NBC producer Dan Hopsicker:
 - a) Were Venice, FL-trained hijackers double-agents?
 - b) Why were they trained at CIA-related flight schools?
7. In the wake of the most devastating air defense and intelligence failure in US history, why were no government or Pentagon officials ever held accountable?
8. Why have many of the civil/military officials most responsible for this disaster been rewarded or promoted?
9. Why has no one investigated the millions that went to prophetic traders who bet in the days before 9/11 that American & United Airline stocks would suddenly tank?
10. Why did the Bush/Cheney Administration stonewall victim family pleas for a full investigation for over a year?
11. Why can National 9/11 Commission investigators only interview many official witnesses in the presence of administration "minders" and why is none of the hearing testimony given under oath?
