KEEP THE GREEN  
IN MAINE

Secede from  
Corporate  
America

*"The Problem's pretty simple. Big corporations bought our government, and we can't afford to buy it back."*

Arundel, Biddeford, Kennebunk & Kennebunkport

CAMPAIGN THEMES (for starters)

*As Maine goes so goes the nation  
(but we have to get there first)*

### RESTORE MAINE'S HEALTH

- Institute Universal Health Care, Drug Imports from Canada, Body Awareness Training in Classes K-12, Bans on Corporate Toxins in our Water, Air & Food

### REBUILD MAINE'S WEALTH

- Demand recovery of the \$1.3 trillion that's gone "missing" in the Pentagon (or at least Maine's \$2.9 billion share) [www.wheristhemoney.org](http://www.wheristhemoney.org)
- Support organic agriculture, industrial hemp and creative small business (instead of corporate chains);
- Sue polluting Midwest power companies to recoup Maine's huge acid rain, asthma and mercury costs.
- Plant 100-year Carbon Forest zones in the clear-cut North country (the carbon credit market will be worth \$3 trillion by 2010) [www.carbonforest.com](http://www.carbonforest.com)
- Recompute property taxes based on purchase price to protect fixed income seniors and native families.
- Start social asset surveys to identify skills & talents latent in our towns, and activate them with *Time Dollar*-style service barter systems. [www.mtdn.org](http://www.mtdn.org)

### RENEW MAINE'S DEMOCRACY

- Democratize Maine Public Radio: mandate open elections and expand the range of news and debate
- Strengthen our Initiative & Referendum process and direct democracy (it's legislatively attacked by corporate interests about 10 times every year)
- Revoke corporations' "personhood" rights and ban their participation in any political campaigns.
- Expand corporate directors' legal duties beyond mere fiscal stewardship to reasonable responsibility for protecting their workers' rights, the environment, and their surrounding communities.

### Recent Life

David K worked in Japan as a lecturer, journalist,  
and democracy activist throughout the Nineties,  
collaborating with that nation's leading anti-  
military-industrial groups. He returned to Maine in  
2000 and founded Big Medicine, a non-profit  
media, research and education institute devoted to  
studying the "corporate takeover of our country,  
culture and consciousness." He also works with  
Maine's Independent Media Center, co-produces  
the "Ain't that Good News!" progressive strategy  
hour on New York's WBAI FM, and organizes  
workshops, conferences and teach-ins on the  
corporate coup d'état He's recently written and  
organized around the still unanswered questions of  
9/11 and its cynical exploitation to lead us into  
Constitutional twilight, fiscal ruin and endless war.

## WHY THIS SEAT IS WORTH WINNING.

"Think Globally, Act Locally" is a grand motto,  
but so is its inverse. Thoughtful action in  
Maine's State Senate would give us the best of  
both (especially if we held the tiebreaking vote  
between the warring Reps and Dems)..

Imagine, as probable, that our local Republican  
and Democratic votes are almost evenly split this  
year, and we end up in our senate with 17 Rs, 17  
Ds, and one wildcard Green. By helping carry a  
few GOP pork barrels here and a little Dem pork  
belly there, an indy newcomer could soon build  
the muscle to push through some very serious  
laws – laws to cut corporate \$\$\$ out of our  
politics for good, laws to protect our children's  
health, laws to rebuild a creative job-rich  
economy from the bottom up.

Senate District #4 includes Arundel,  
Kennebunk, Kennebunkport and most of  
Biddeford. It covers the socio-economic  
spectrum from lush beach-front estates and  
yuppie 'burbs to hardscrabble farms and  
backstreet slums. Despite this great diversity,  
these communities are all under siege. Their  
children all play in the same toxic air, acid rain,  
and mercury-laden exhaust plumes from the  
huge Midwestern power plants "upstream".  
Their economic environment is not much better.  
All face punishing taxes, exorbitant energy fees,  
ballooning health costs and a collapsing state  
economy. Downtown Biddeford is now a ghost  
town drained of life, shops and vitality by the  
Big Box corporate chains. The coming Route 1  
Supercenter promises Kennebunk a similar fate.  
In K'port. property taxes have forced a third of  
the "natives" (who built this community) from  
their lifelong family homes, and the struggling  
farms of Arundel are also up against the wall.

With your help we can make a huge difference on  
all these fronts for our own future and our kids.  
(And as an added bonus, we'll have loud chances  
in K'port this summer to speak dangerous truths  
to GWB, the corporate coup's puppet in chief.)
